EDUCATION

University of California San Diego <i>B.S. in Computer Science</i>	La Jolla, CA Sept. 2026 – Present
Hohhot No. 2 High School <i>GPA: 4.0/4.0 (Unweighted)</i>	Hohhot, Inner Mongolia, China Sept. 2023 – Jun. 2026

EXPERIENCE

Lab Research Intern – Prof. Ninghua Zhu's Laboratory <i>Prof. Ninghua Zhu, Institute of Semiconductors, Chinese Academy of Sciences (CAS)</i>	Aug. 2025 – Aug. 2026 Beijing, China
- Participated in a year-long research project on optoelectronic devices and integrated photonics, observing project development, experimental design, and data-processing workflows. - Assisted researchers with data processing and analysis and observed laboratory research workflows. - Selected through a competitive national program at the Finals of The China Adolescents Science and Technology Innovation Contest, with applicants from both high schools and universities.	
Student Researcher – China Talent Program (YINGCAIJIHUA) <i>Prof. Guanglai Gao, College of CS & AI, Inner Mongolia University</i>	Dec. 2023 – Dec. 2024 Hohhot, Inner Mongolia, China
- Developed an AI classroom note-generation system using ASR, LLMs, and APIs to generate timestamps, summaries, and lecture screenshots. Designed the workflow for video processing, speech-to-text, LLM summarization, and multimodal note generation. - Obtained Chinese Software Copyright Registration No. 2025SR1231431; earned 96/100 and was selected for a national exchange program for 80 outstanding students at.	
Student Researcher – Generation AI @SCP KU <i>Minglong Li – Advisor, Stanford Center at Peking University</i>	May. 2024 – Jul. 2024 Beijing, China
- Implemented the CGI simulation pipeline in Python and designed a compact U-Net architecture for low-resolution image reconstruction, incorporating convolutional layers, batch normalization, ReLU activation, max pooling, upsampling, and skip connections. - Achieved an average SSIM and PSNR with DMGI-SSIM in the reported experiments; authored “Optimization of Light Source Structure in Ghost Imaging Based on a Diffusion Model Derived from DDPM.” - Received an A+ final evaluation, placing in the top 15% of participants.	

HONORS

• China Association for Science and Technology (CAST) Chairman's Award	2025
• Platinum Division, USA Computing Olympiad (USACO)	2026
• Outstanding Scholar in Computer Science (top 80/1800), China Talent Program (CAST, China)	2024

SERVICE

Hohhot No.2 High School Computer Science Club <i>Founder & President</i>	Step. 2024 – Jun. 2026 For School
Taught members fundamental computer science concepts and guided them in AI-based projects, sharing my research experience and mentoring them in completing their individual projects.	
Joint Information Technology Department, Student Council <i>Director</i>	Oct. 2023 – Jun. 2025 For School
Provided technical support for events, including audio and lighting operation, timers, and other technical tasks.	

SKILLS

Programming: C++, Python, Java, C#.

Hardware & Embedded: Arduino, Microcontrollers, Sensors, Electronics, Prototyping

Area: Algorithm Competition, Computer Vision, Cyber Security.
